

CONTENTS VOLUME 66 NO. 1 1975

-
- 1 DROCHMANS, P., and J.-C. WANSON, R. MOSSELMANS. Isolation and subfractionation of Ficoll gradients of adult rat hepatocytes. Size, morphology, and biochemical characteristics of cell fractions
 - 23 WANSON, J.-C., and P. DROCHMANS, C. MAY, W. PENASSE, A. POPOWSKI. Isolation of centrolobular and perilobular hepatocytes after phenobarbital treatment
 - 42 REDMAN, C. M., and D. BANERJEE, K. HOWELL, G. E. PALADE. Colchicine inhibition of plasma protein release from rat hepatocytes
 - 60 ZIMMERMAN, B. L., and M. O. M. TSO. Morphologic evidence of photoreceptor differentiation of pinealocytes in the neonatal rat
 - 76 RUTISHAUSER, U., and L. SACHS. Receptor mobility and the binding of cells to lectin-coated fibers
 - 86 SCHUETZ, A. W. Cytoplasmic activation of starfish oocytes by sperm and divalent ionophore A-23187
 - 95 LEY, K. D. Detection of G₁ proteins in Chinese hamster cells synchronized by isoleucine deprivation or mitotic selection
 - 102 DURIEU-TRAUTMANN, O., and J. TAVLITZKI. Reversible and permanent effects of the carbon sources and various antibiotics on the morphology and metabolic properties of *Ustilago cynodontis* cells
 - 114 SALMON, E. D. Pressure-induced depolymerization of spindle microtubules. II. Thermodynamics of in vivo spindle assembly
 - 128 WANG, J. L., and G. R. GUNTHER, G. M. EDELMAN. Inhibition by colchicine of the mitogenic stimulation of lymphocytes prior to the S phase
 - 145 EDDS, K. T. Motility in *Echinospaerium nucleoflum*. I. An analysis of particle motions in the axopodia and a direct test of the involvement of the axoneme
 - 156 EDDS, K. T. Motility in *Echinospaerium nucleoflum*. II. Cytoplasmic contractility and its molecular basis
 - 165 BAUDUIN, H., and C. STOCK, D. VINCENT, J. F. GRENIER. Microfilamentous system and secretion of enzyme in the exocrine pancreas. Effect of cytochalasin B

BRIEF NOTES

- 183 FEIGENSON, M. E., and H. P. SCHNEBLI, M. BAGGIOLINI. Demonstration of ricin-binding sites on the outer face of azurophil and specific granules of rabbit polymorphonuclear leukocytes
- 188 KRISHAN, A. Rapid flow cytofluorometric analysis of mammalian cell cycle by propidium iodide staining
- 193 RINALDI, R. A., and B. HREBENDA. Oriented thick and thin filaments in *Amoeba proteus*
- 198 MAZIA, D., and G. SCHATTEN, W. SALE. Adhesion of cells to surfaces coated with polylysine. Applications to electron microscopy
- 200 YEE, A. G., and J. P. REVEL. Endothelial cell junctions
- 204 CLEFFMANN, G. Amount of DNA produced during extra S phases in *Tetrahymena*
- 209 FERTUCK, H. C., and W. WOODWARD, M. M. SALPETER. In vivo recovery of muscle contraction after α -bungarotoxin binding

LETTERS TO THE EDITOR

- 215 PROP, F. J. A., D. PASQUALE, A., and P. B. BELL, JR., ELSDALE, T., and J. BARD.
