

Supplementary data 2. Cryo-EM data collection and processing of the SOSIP-7-155 and SOSIP-7-176 complexes. A micrograph with particles, selected two-dimensional class averages, a local resolution graphic, and a scheme with the steps followed to process the collected data (along with GSFSC resolution plots) are shown for the SOSIP-7-155 (A) and SOSIP-7-176 (B) complexes.
