

CONTENTS

No. 1, JULY 1, 1955

	<small>PAGE</small>
STRAUS, WERNER, and OLIVER, JEAN. Cellular mechanisms of protein metabolism in the nephron. VI. The immunological demonstration of egg white in droplets and other cellular fractions of the rat kidney after intraperitoneal injection.....	1
McCARTY, MACLYN, and LANCEFIELD, REBECCA C. Variation in the group-specific carbohydrate of group A streptococci. I. Immunochemical studies on the carbohydrates of variant strains.....	11
HOGUE, M. J., McALLISTER, R., GREENE, A. E., and CORIELL, L. L. The effect of poliomyelitis virus on human brain cells in tissue culture. Plates 1 to 4.....	29
EAGLE, HARRY. The specific amino acid requirements of a human carcinoma cell (strain HeLa) in tissue culture. Plates 5 to 8.....	37
COONS, ALBERT H., LEDUC, ELIZABETH H., and CONNOLLY, JEANNE M. Studies on antibody production. I. A method for the histochemical demonstration of specific antibody and its application to a study of the hyperimmune rabbit. Plates 9 and 10.....	49
LEDUC, ELIZABETH H., COONS, ALBERT H., and CONNOLLY, JEANNE M. Studies on antibody production. II. The primary and secondary responses in the popliteal lymph node of the rabbit. Plates 11 to 13....	61
WHITE, ROBERT G., COONS, ALBERT H., and CONNOLLY, JEANNE M. Studies on antibody production. III. The alum granuloma. Plates 14 and 15.....	73
WHITE, ROBERT G., COONS, ALBERT H., and CONNOLLY, JEANNE M. Studies on antibody production. IV. The role of a wax fraction of <i>Mycobacterium tuberculosis</i> in adjuvant emulsions on the production of antibody to egg albumin. Plates 16 to 19.....	83
