

CONTENTS

VOLUME 116, No. 5, 1962

HARRIS, T. N., HARRIS, SUSANNA, and FARBER, MARIAM B. Immunologic response of neonatal and older rabbits to antigens of rabbit leucocytes.....	575
KOENIG, M. GLENN, MELLY, MARIAN ANN, and ROGERS, DAVID E. Factors relating to the virulence of staphylococci. II. Observations on four mouse-pathogenic strains.....	589
KOENIG, M. GLENN, MELLY, MARIAN ANN, and ROGERS, DAVID E. Factors relating to the virulence of staphylococci. III. Antibacterial <i>versus</i> antitoxic immunity.....	601
LEE, LEUNG, and McCLUSKEY, ROBERT T. Immunohistochemical demonstration of the reticuloendothelial clearance of circulating fibrin aggregates. Plates 83 and 84.....	611
HOROWITZ, HERBERT I., DES PREZ, ROGER, M., and HOOK, EDWARD W. Effects of bacterial endotoxin on rabbit platelets. II. Enhancement of platelet factor 3 activity <i>in vitro</i> and <i>in vivo</i>	619
OLINS, D. E., and EDELMAN, G. M. The antigenic structure of the polypeptide chains of human γ -globulin.....	635
WIROSTKO, E., and HALBERT S. P. Suppression of allergic uveitis by 6-mercaptopurine. Plates 85 to 88.....	653
METTLER, NORMA E., MACNAMARA, LESTER G., and SHOPE, RICHARD E. The propagation of the virus of epizootic hemorrhagic disease of deer in newborn mice and HeLa cells.....	665
HOYER, JOHN R., HOYER, LEON W., GOOD, ROBERT A., and CONDIE, RICHARD M. The effect of 6-mercaptopurine on delayed hypersensitivity in guinea pigs..	679
SHAINOFF, JOHN R., and PAGE, IRVINE H. Significance of cryoprofibrin in fibrinogen-fibrin conversion.....	687
POLACK, FRANK M. Histopathological and histochemical alterations in the early stages of corneal graft rejection. Plates 89 to 93.....	709
HARBOE, M., OSTERLAND, C. K., MANNIK, M., and KUNKEL, H. G. Genetic characters of human γ -globulins in myeloma proteins.....	719
WALKER, DUARD L., and HINZE, HARRY C. A carrier state of mumps virus in human conjunctiva cells. I. General characteristics. Plate 94.....	739
WALKER, DUARD L., and HINZE, HARRY C. A carrier state of mumps virus in human conjunctiva cells. II. Observations on intercellular transfer of virus and virus release. Plate 95.....	751
AISENBERG, ALAN C., WILKES, BARBARA, and WAKSMAN, BYRON H. The production of runt disease in rats thymectomized at birth. Plates 96 to 103.....	759
GOOD, ROBERT A., DALMASSO, AGUSTIN P., MARTINEZ, CARLOS, ARCHER, OLGA K., PIERCE, JAMES C., and PAPERMASTER, BEN W. The role of the thymus in development of immunologic capacity in rabbits and mice. Plates 104 to 107.....	773
VESELL, ELLIOT S., PHILIP, JOHN, and BEARN, ALEXANDER G. Comparative studies of the isozymes of lactic dehydrogenase in rabbit and man. Observations during development and in tissue culture.....	797
