

## CONTENTS

ix

No. 5, MAY 1, 1938

	PAGE
KELLEY, WILLIAM H., SCADRON, E. N., and SHINNERS, B. M. Hydrogen ion concentration in exudates of pneumococcus infection.....	659
KELLEY, WILLIAM H. The effects of acidity upon the growth of pneumococcus in culture media containing proteins.....	667
MADDEN, S. C., GEORGE, W. E., WARAIKH, G. S., and WHIPPLE, G. H. Blood plasma protein regeneration as influenced by fasting, infection, and diet factors. Variable reserve stores of plasma protein building material in the dog.....	675
GREENE, HARRY S. N., and SAXTON, JOHN A., JR. Uterine adenomata in the rabbit. I. Clinical history, pathology, and preliminary transplantation experiments. Plates 28 to 31...	691
LANDSTEINER, K., and VAN DER SCHEER, J. On cross-reactions of immune sera to azo proteins. II. Antigens with azo components containing two determinant groups.....	709
PARKER, ROBERT F. Statistical studies of the nature of the infectious unit of vaccine virus.....	725
SHOPE, RICHARD E. Serological evidence for the occurrence of infection with human influenza virus in swine.....	739
EHRICH, WILLIAM E., BARTOL, GEORGE M., and WOLF, RICHARD E. The excretion of cyanol, azo fuchsin I, and water by the kidneys of rabbits.....	749
EHRICH, WILLIAM E., WOLF, RICHARD E., and BARTOL, GEORGE M. Acute experimental glomerular nephritis in rabbits: a correlation of morphological and functional changes. Plates 32 to 35.....	769
DUBOS, RENÉ J., and MACLEOD, C. M. The effect of a tissue enzyme upon pneumococci.....	791
DUBOS, RENÉ J. Immunization of experimental animals with a soluble antigen extracted from pneumococci.....	799
GOLDBLATT, HARRY. Studies on experimental hypertension. VII. The production of the malignant phase of hypertension. Plate 36.....	809
